

Spa Modules 
Design and building

Spa Moduls offer spectacular regular and special solutions for business and private projects. We understand our wellness-clients and their high expectations. As a well-being or wellness-centre oriented design and construction firm, we understand that design should have both: form and function. Taking these aspects into account we create sensuous spa-area, where is used only the newest technology. Our designers have created various product assortment for the bathrooms, vapour baths and spas. Usually the blank products are in a serial production, however according to your wishes and opportunities we produce also special subscriptions. So, we offer very unique products, that are disigned only for you!

We create form ideas the reality, by consulting design, creative solutions and technical information. In necessary, we could help with final emplacement, visual examination and remission.

Saunas

Our manufactured unique saunas it is possible to enjoy sauna as it was centuries ago in Ancient-Greece or – Rome. **Cupola**, **Tacco** and **Cubo** design-saunas afford enjoying quality and comfy in spas or at home. Design-sauna serial products capacity depends on its proportions from 4 up to 14 persons.
