

Spa Modules 
Design and building

Spa Modules pakub silmapaistvaid tava- ja erilahendusi nii äri- kui eraprojektidele, arvestades tänapäeva wellness-klientide kõrgeid ootusi. Heaolu- ehk nn wellness-keskuste suunitlusega disaini- ja ehitusfirmana mõistame, et suurepärasel disainil peab olema nii vorm kui ka funktsioon. Seda arvestades loome esteetilise spaa-ala, kus kasutatakse vaid uusimat tehnoloogiat. Meie valikusse on disainerid loonud erinevaid tooteid vannitubade, aurusaunade ja spaade tarvis. Tooted on toorikutena seeriatootmises, kuid vastavalt Teie soovidele ja võimalustele valmistame kõiki ka eritellimustena. Pakume seega ka väga unikaalseid lahendusi, mis on disainitud spetsiaalselt Teile.

Aitame luua ideedest reaalsuse nõustades disaini, loov-lahenduste ning tehnilise informatsiooniga. Vajadusel oleme abiks lõplikust paigaldamisest, ülevaatamise ja üleandmiseni.

Saunad

Meie toodetud unikaalse disainiga saunades saab nautida saunamõnuseid nagu seda tehti sajandeid tagasi Vana-Kreekas ja Roomas. **Cupola**, **Tacco** ja **Cubo** disainsaunad võimaldavad nautida kvaliteeti ja hubasust sobitundes nii spaadesse kui ka kodustesse tingimustesse. Disainsauna sarja seeriatoodete mahutavus on tootest ja selle mõõtmetest sõltuvalt 4–14 inimest. Disainsaunad on saadaval nii seeriatootmises kui ka erilahendustena tellides.

Pingid ja lamamistoolid

Pinkide ja lamamistoolide sarjas disainime ja toodame vastavalt kliendi soovidele, vajadustele ja võimalustele. Pinkide ja toolide osas võivad esineda teatavad piirangud nende paigaldamisel, kuid tootes väga täpselt konkreetsete jooniste alusel saame selle riski viia miinimumini.

Pinke ja toole toodame samuti nii seeriatootmises kui ka eritellimuslike töödena. Lisaks valmistame pinke ja lamamistoole standardsetes mõõtudes toorikutena, mis võimaldavad soovi korral ja vajalike oskuste olemasolul ise neile lõplik disain ja kuju luua.
